Our European Graduate Programme secures our future leaders today and builds their skills, expertise and knowledge for the challenges of tomorrow.

What lies ahead for you

During the 18-month programme you will complete three work assignments (6 months each) in three core business areas: Sales & Marketing, Operations and Supply. You will spend two assignments in your home country and one assignment abroad in another European location. Once you have finished the programme, we will support you in finding a position best suited to your strengths.

What you can expect

Challenge yourself: Push your own boundaries as you face demanding business assignments.

See the world: Get to know new cultures, traditions and practices by working abroad in an international environment.

Hone your skills: Mentoring and individually tailored training will bring out your best.

Make connections: Connect with other graduates and employees to establish a network for the future.

Get exposure: Benefit from the high visibility of the programme towards our senior management.

Taste the future: The first 18 months is just the beginning – a leading career awaits you afterwards.
